

60° North Greenland ApS

About Us

60° North Greenland provides comprehensive mining support services in Qaqortoq and beyond. With expertise in extreme conditions, we ensure efficient and reliable operations for mining projects.

Our Services

- Drilling & Blasting – Precision drilling and controlled blasting solutions for mining operations.
- Marine & Transport – Safe and efficient transportation of equipment, personnel, and materials.
- Accommodation – Comfortable lodging solutions tailored to mining personnel needs.
- Machinery & Equipment – Access to a well-maintained fleet of mining and construction equipment.
- Surveying & Drones – Advanced land surveying and aerial drone services for accurate site assessments.
- Mechanical Services – Skilled mechanics ensuring seamless equipment operation and maintenance.

Our Services

- Extreme Conditions Expertise – We thrive in Arctic conditions where others hesitate.
- Full-Service Solutions – From logistics to lodging, we cover all mining support needs.
- Local Knowledge & Global Standards – Combining deep local expertise with international best practices.
